Minutes of Meeting
February 20, 2019
5pm – 8pm

Members:
Present: Jerry, Sangeetha, Sibendu, Tarun, Virat

Previous Meeting:
Date: February 19, 2019

Proceedings:

- In the previous meeting, the UML diagram of the app which covered all the basic and important functionalities was framed.

- The agenda of this meeting was to come up with the Use Case diagram using the entities and relations that were identified in the UML diagram.

- The initial setup issues in Git pull request were identified and resolved. Also the Jenkins plugin issue was also discussed.

- A few changes in the UML diagram based on the new ideas provided by the professor were implemented. This caused a slight change in the relationship between entities.

- The use case for various scenarios depicted in the UML diagram were identified and illustrated.

- Each member of the team came up with various use cases that could be performed on the entities and the use case diagram for each of the use case was illustrated.

- The various difficulties faced by each of the member in writing the test cases and other tasks were looked upon and thereby making every member of the team getting insights on the various issues and the code.
